

# HARCO FITTINGS

**Offering products for utility, irrigation, and drainage markets**

## About the Harrington Corporation (HARCO)

HARCO is a producer of gasketed joint injection-molded PVC fittings and push-on gasketed joint ductile fittings. Don Harrington formed the company in 1966. The first product was a gasketed coupling to join plain end PVC pipe. Success after that was based on product innovations, effectiveness in manufacturing, and company discipline in providing superior service.

HARCO has become a leading developer of pipe fittings for the utility, irrigation, and drainage markets. HARCO was the first manufacturer in the United States to produce injection molded gasketed PVC fittings for SDR 26 & SDR 21 pipe, injection molded gasketed PVC fittings for SDR 35 sewer pipe, and injection molded gasketed PVC fittings for C900

PVC pipe. HARCO developed the first compact ductile iron MJ fittings (AWWA C153) in 1977. HARCO also developed the Swivel Joint Lateral Connection System and a series of Lateral Isolation Valves for serving lateral-to-main connections.

HARCO manufactures fittings at its facilities in Lynchburg, VA and Janesville, WI and operates warehouses in Winter Haven, FL; Dallas, TX; and Phoenix, AZ. Recent acquisitions have allowed HARCO to expand into manufacture of Sch 40 and Sch 80 fittings, sewer fittings up to 36", and storm water solutions such as drain basins and inline drains. HARCO also offers a line of HDPE Fittings and other products for HDPE applications.

## PVC FITTINGS

- Gasketed IPS Molded Pressure Fittings, 1½" to 8"
- Gasketed SDR 35 Sewer Fittings, 4" to 27"
- SDR 35 Solvent Weld Bell Fittings, 10" to 30"
- Gasketed SDR 26 Sewer Fittings, 4" to 27"
- Gasketed SDR 18 Sewer Fittings, 6" & 8"
- Special Application Sewer Products (Riser and 2-Way Clean-outs)
- Gasketed Molded Pressure Fittings for C900 Pipe, 4" to 8"
- C900 Drainage, DR18 and DR25, 8" to 12"
- C905 Drainage, DR18 and DR25, 8" to 24"
- Solvent Weld Bell Sch 40 & 80 DWV Fittings, 8" to 24"
- IPS Drainage, SDR 26 and 21, 4" to 12"
- Profile Fittings, 8" to 36"

## DUCTILE IRON FITTINGS

- Gasketed Fittings for PVC Sewer Pipe, 4" to 12"
- Gasketed Fittings for DI-OD Ductile Iron and C900 PVC Pipe, 4" to 12"
- Gasketed Fittings for IPS-Size PVC Pipe, 1½" to 12"; for C905 Pipe, 14" to 18"
- Lateral Isolation Valves, 2" to 4"

## PVC DRAIN BASINS

- 8" to 36"

## PP COMPRESSION

- 3G Compression Fittings, ¾" to 2"
  - IPS SDR
  - IPS SIDR
  - CTS
  - Kitec/XPA/Q-Line
- Universal Transition Coupling Compression Fittings

## HDPE FITTINGS

- Fabricated Butt Fusion Fittings
- Molded Butt Fusion Fittings, ½" to 12"
- Molded Socket Fusion Fittings, ½" to 4"
- Electrofusion Fittings, ¾" to 24"
- Transitions & Adapters
